

## Erasmus+ project

# Students' Mobility Capacity Building in Higher Education in Ukraine and Serbia / MILETUS

## Blended Mobility Run for PhD students

MILETUS project addresses capacity building in the field of mobility for students and PhD students from Serbia and Ukraine. The main objectives of the blended mobility program for PhD students are enhancing of research quality and development of transferable skills through international, inter-institutional and interdisciplinary research work at the host universities. Blended mobility provides PhD students an opportunity for joint work with access to research materials and resources of host university in close collaboration with research fellows and professors of host universities. The proposed mobility program for PhD students combines both real and virtual mobility runs. The duration of the blended mobility run is about 5,5 months with a real phase about 2 months.

### About MILETUS blended mobility program for PhD students

- Blended mobility run for PhD students from Ukraine and Serbia is a combination of virtual and real mobility run.
- The blended mobility run is divided into 3 phases:

**Phase I (virtual):** During the first preliminary phase students under the supervision of professors of host university should define the joint research topic, research methodology and expected results of the research (e.g. scientific papers, conference material etc.). PhD students will work in international and interdisciplinary groups of 2 -3 persons.

**Phase II (real):** During the second phase PhD students will travel to the host universities for 2 months for active cooperation with research fellows and professors of host universities. This allows the PhD students to experience exchange, to access research materials and resources and to conduct research activity at the host institution.

**Phase III (virtual):** The third and final phase involves evaluation of the results and finalization of the joint paper.

### Who can apply for MILETUS blended mobility program?

- Full-time PhD students of the Partner Universities in Serbia and Ukraine.
- High language proficiency in English (**at least B2 – upper-intermediate level**) is required.
- High level of motivation to be enrolled in the blended mobility run.

### Partner Universities in Ukraine and Serbia are:

- Mykolayiv National Agrarian University (Ukraine);
- Private Higher Educational Institution Kharkiv University of Humanities “People’s Ukrainian Academy” (Ukraine);
- National University of Kyiv-Mohyla Academy (Ukraine);
- Lesya Ukrainka Eastern European National University (Ukraine);
- University of Niš (Serbia);
- University of Novi Sad (Serbia);
- Singidunum University (Serbia).

### Programme Universities in Ukraine and Serbia are:

- Hamburg University of Technology (Germany);
- Politecnico di Milano (Italy);
- Aalborg University (Denmark).
