

## DEV 6.5.1, 6.5.2, 6.5.3, 6.5.4 Sustainability action plan; WP6 Sustainability workshop

October 02-03, 2019, Milan, Italy

---

*ERASMUS+ MILETUS - Event report*

Date: 11-Oct-19

### Event description

---

- DEV 6.5.1, 6.5.2, 6.5.3, 6.5.4 Sustainability action plan; WP6 Sustainability workshop.
- Place: Milan, Italy
- Date: October 02-03, 2019
- Number of participants: 21 (12 females and 9 males).

Followed the first brainstorming on the sustainability of the project results after the end of the project lifetime, which took place during the final project meeting in September 2019, the second brainstorming was held on October 02 and 03, 2019 in Milan, Italy. The Politecnico di Milano (POLIMI) warmly welcomed the participants and took care of the organisational issues of the project workshop.

The sustainability workshop extending the current project activities was necessary to develop and coordinate ideas for maintaining the project results and cooperation beyond of the project. The sustainability plan (DEV 6.5.4) served as a basis for the sustainability workshop. Building on the adopted sustainability strategies and key indicators for sustainability models for courses, virtual and blended mobility and International Offices/Students Mobility Offices, to-do plans were developed at institutional and inter-institutional level. The results of the workshop were presented and compared in the discussion round; deadlines for the implementation of the corresponding measures have been set.

The second workshop on the sustainability of the partnership was devoted to the follow-up activity and brainstorming for the further international and interinstitutional partner collaboration with the aim of continuing the established cooperation after the end of the MILETUS project.

We would like to thank all consortium partners and all participants involved in the project realization for your cooperation and your contribution to the project implementation.
